ICE 70 Ice Yacht

Carbon Sailing Elegance Redefined

Built for owners who want genuine distinction under sail, the ICE 70 combines elegance, technology, performance and versatility in a single, highly refined platform. Felci Yacht Design delivers a yacht with a strong, modern profile and the exclusivity expected from an advanced custom-minded build philosophy.

Construction content reflects decades of shipyard experience, including infusion-built composite parts and extensive carbon fiber use for the hull, deck, structures, mast and rigging. This approach supports rigidity and high safety factors while preserving the responsive character demanded for fast, comfortable cruising and long-distance offshore sailing, with the potential to participate in offshore races.

Life on board is shaped by clear ergonomics and visual order. The cockpit is deep, functional and carefully arranged for crew and helmsman, while the opening stern creates access to a large garage and an easy descent to the sea. Large double-layer glass windows diffuse light through the raised living room, reinforcing the connection between exterior lines and interior comfort. Inside, teak, natural leather and a classic-modern style language create an exclusive atmosphere with optional customization of shapes, colours and materials.

ICE 70 Ice Yacht

Specifications

Length: 21.3m (69.9')

Beam: 5.76m (18.9')

Draft: 4.5m (14.8')

Flag: TBD

Location: Salvirola, Italy

Year Built/Refit: 2027 /

Classification: CE

Description

Accommodation Overview:

Accommodation for 6 guests in 3 staterooms. 2 crew.

Owner

A dedicated forward zone is reserved for the owner, centered on a large and elegant master cabin. The suite includes a master bathroom with shower and sauna, all covered in teak, plus a private study for moments of complete tranquillity.

Guests

The guest area is arranged in the bow area alongside the owner domain and includes a cabin with double bed, large wardrobes and a dedicated bathroom. Materials and styling continue the yacht's classic-modern balance with teak flooring and coordinated finishes throughout.

Crew

The aft area is organized with the captain's cabin, communicating with the kitchen area. This section is completely independent, a layout choice described to guarantee considerable privacy for the owner and guests while supporting practical onboard circulation and separation of spaces.

Machinery Details

Main Engines:

1x Yanmar 4LV, 195 Hp
Standard 4-blade prop
Gear: KMH SOA-3 V drive

Other Machinery:

Bow thruster (standard)
Stern thruster (optional in price list)
Structural fresh, grey and black water tanks
Automatic fire system in engine room
Fire extinguisher in each cabin
Hydraulic vang and backstay (standard)
Anchor and mooring winch
Hydraulic rams
Hydraulic ram for lifting keel
Full deck lighting system

Generators

1x Mase isl2
Inverter: Victron 8000
Battery pack: 1000A 24V lithium
Generator options listed: 8 kW (Paguro), 12 kW (Mase or Onan)

Communication & Navigation

Communication Equipment

Internet Wi-Fi connection with 4G/3G aerial
Mast security cameras bow and stern

Navigation Equipment

LED navigation lights
