ALLOY 40 Sanlorenzo

Alloy Performance with Italian Pedigree

Built by Sanlorenzo in Italy, completed in 2018 and delivered in 2019, this 40.8m alloy yacht combines pedigree construction with Francesco Paszkowski design inside and out. Her aluminium hull and superstructure support a refined, contemporary profile backed by substantial volume of 338 gross tons, creating an impressive platform for owners seeking style, comfort, and proven long-range capability at sea.

Powered by twin MTU 16V 2000 series M96L engines of 1,939 kW each, she delivers a 20-knot cruising speed, 23-knot maximum speed, and a 1,200 nm range at economical speed. Twin ZF gearboxes, Aqualoy shafts, VEEM propellers, Naiad fin stabilizers, and Naiad bow thruster underline the technical specification expected in this caliber of motor yacht for discerning ownership appeal worldwide.

Accommodation is arranged for 10 guests in 5 cabins, supported by systems and equipment specified for serious private yachting. Kohler generators, Idromar desalinators, Tecnicomar sewage treatment, Maxwell deck machinery, and a Williams 505 Jet Tender with SeaDoo GTX jet-ski complete a package that balances design credibility, mechanical substance, and practical onboard functionality for confident cruising and guest enjoyment in service.

ALLOY 40 Sanlorenzo
