2022 SL96A 764 SANLORENZO Sanlorenzo

Redefining Luxury in Maritime Elegance

The Sanlorenzo SL96A redefined the 30-metre market through the shipyard's pioneering asymmetrical design concept. By removing one side deck and expanding the adjacent interior, her architecture creates wider living spaces, greater natural light and a more direct relationship with the sea without sacrificing elegant Italian proportions.

Her sophisticated interior combines bespoke finishes and premium materials with luxurious accommodation centred around a full-beam owner's suite. Exterior spaces include generous sunbathing areas, alfresco dining, comfortable lounges and a welcoming beach club, supported by discreet crew accommodation and thoughtful circulation throughout.

Efficient propulsion and modern stabilisation provide smooth, quiet performance both underway and at anchor. The SL96A's appeal lies not only in craftsmanship or comfort, but in the intelligence of her layout - a yacht where architecture itself becomes one of the principal luxuries.
