Discover Your Dream Yacht: 2021 Sanlorenzo SX76

The Sanlorenzo SX76 introduced a new crossover concept, combining explorer-style volume with the elegance and performance of a contemporary flybridge yacht. Expansive glazing, clean architectural lines and fluid indoor-outdoor connections create an open environment designed around modern life on the water.

Inside, bespoke Italian finishes and abundant natural light give the atmosphere of a luxury waterfront residence, complemented by comfortable guest accommodation and discreet crew quarters. The defining aft beach area extends the living space directly to the sea, supported by flexible lounges and dining zones.

Efficient hull design, proven propulsion and stabilisation systems deliver confident, comfortable cruising across varied conditions. More than a conventional motor yacht, the SX76 offers a different way to use the water - informal, adaptable and centred on the expansive stern terrace that made the model a design benchmark.
