Bluegame Performance Package

Built by Bluegame in 2022, the BG72 - 01 is a 22.8_metre motor yacht with a 5.6_metre beam and GRP hull construction. Twin Volvo Penta IPS 1200 D13 engines provide a stated performance of 28 knots maximum speed and 25 knots cruising speed. Approximately 1,500 engine hours are recorded in the brochure, confirming documented recent operational use for prospective buyers.

The specification sheet highlights a fuel capacity of 4,000 litres and a fresh water capacity of 1,000 litres, supported by generator hours recorded at 3,260. Flying the Maltese flag, this BG72 combines the credentials of a recent build year with the strong reputation of the Bluegame name, offering buyers a clearly documented platform supported by the principal technical data presented in the brochure, with concise specifications throughout.

The equipment and options pages further underline a highly detailed package, including Glendenning Cablemaster CM 7, Seakeeper 16, variable_speed bow thruster, Garmin open array radar, FLIR night_vision camera, CCTV system, tropical air conditioning, watermaker, lithium batteries, upgraded hi_fi system with subwoofer, and a wide range of interior, exterior and customisation upgrades, reinforcing the yacht's comprehensive published inventory.
